New Training Related Program Codes

PLAS Protégés,

New PLAS Program Codes for Training. We have two new Program codes for FY99 Training. These codes expand the definition of Training and identify specific processes involved.

NP053 – Conference-Based Training. Use this code when developing, conducting or attending a conference or workshop, including All-Hands Meetings and Commander's Calls.

- When the agenda is process specific, charge the PLAS process and this program. Examples: attendees at the DCMC Pricing & Negotiation Conference would charge Process 041 – Contract Pricing; attendees at the DCMC Budget Conference would charge process 221 – Formulate/Execute Budget.
- When the agenda is non-process specific or a mixture of processes, time would generally be charged to process 191 – Plans & Policy Deployment – (Non-Process Specific) for business related issues or process 223 – Human Resource Management for employee related matters. Examples: Commanders Conference, Group Chief Conference or SFA Conference dealing with a variety of CAS issues charge process 191; All Hands Meetings, such as U.S. Savings Bond Drive, Commander's Calls on employee issues, etc., charge process 223.

SmartPLAS allows use of this program code with most technical processes and indirect processes. This program code is not valid for use with any 217 Series Training process code.

NP054 – AIS Deployment Training. Use this code when developing, conducting, or attending training/meetings related to the deployment of either DCMC-specific application or commercial off-the-shelf (OTS) software.

SmartPLAS allows the use of this program code only with the 217 Series Training process codes.

Questions? Contact us at 1-888-PLASINFO or PLASHELP@mwest.dcmdc.dla.mil.

Respectfully,

Don Peterson
PLAS Program Manager
